

Terms of Service

Effective Date: June 14, 2026

Welcome to **WA Message to Post** ("the App"). By accessing or using our application, you agree to be bound by these Terms of Service ("Terms"). If you do not agree to these Terms, you may not use the App.

1. Description of Service

WA Message to Post provides automation services that allow a WhatsApp group administrator to automatically forward and publish messages (text, images, or media) from a designated WhatsApp group to a linked Facebook Page.

2. Eligibility and Account Responsibilities

- **Authorization:** You represent and warrant that you are the lawful administrator of both the linked WhatsApp group and the designated Facebook Page, with full authority to automate postings between them.
- **Meta Platform Compliance:** The App relies entirely on official APIs provided by Meta Platforms, Inc. You are solely responsible for ensuring that your use of the App complies with Facebook's Terms of Service, WhatsApp's Terms of Service, and all applicable Meta Developer Policies.
- **Group Configuration:** As noted in our Privacy Policy, the App is designed under the assumption that the connected WhatsApp group is configured to restrict messaging permissions exclusively to the administrator. You are responsible for maintaining this configuration.

3. Access Tokens and Security

To operate, the App requires secure API access tokens provided by Meta.

- You grant the App permission to use these tokens strictly to read administrator messages and publish them to your Facebook Page.
- You are responsible for maintaining the security of your accounts and access tokens.
- You can revoke the App's permissions or disconnect your accounts at any time.

4. Content Rights and License

- **Your Content:** You retain all ownership rights to the text, images, or media processed through the App.

- **Transient License:** By using the Service, you grant the App a limited, temporary, worldwide license to access, format, and transmit your content to Meta's APIs. This processing happens in real-time; the App does not store, archive, or back up your content once it is successfully posted.

5. Prohibited Conduct

You agree **not** to use the App to:

- Transmit or publish any content that violates local, state, national, or international laws.
- Infringe upon the intellectual property or privacy rights of any third party.
- Circuvent or attempt to circumvent Meta's platform rate limits, security measures, or automated controls.
- Deploy the App in any manner that transmits malware, viruses, or destructive code.

6. Disclaimer of Warranties

The App is provided on an "**AS IS**" and "**AS AVAILABLE**" basis. We make no warranties, express or implied, regarding the reliability, uptime, or continuous availability of the automation.

Important Meta API Dependency: Because the App relies entirely on Meta's infrastructure, we are not responsible for delivery failures, delays, or service interruptions caused by Meta API modifications, token expirations, network outages, or account suspensions imposed by Meta.

7. Limitation of Liability

To the maximum extent permitted by law, in no event shall the App creator(s) be liable for any indirect, incidental, special, consequential, or punitive damages—including but not limited to loss of data, loss of profits, or business interruptions—arising out of your use or inability to use the Service.

8. Termination

We reserve the right to suspend or terminate your access to the App at any time, without prior notice, if we believe you have breached these Terms or if changes to third-party APIs make the operation of the App unviable. You may terminate this agreement at any time by disconnecting the App and revoking its Meta permissions.

9. Governing Law

These Terms shall be governed by and construed in accordance with the laws of the jurisdiction in which the App creator operates, without regard to its conflict of law provisions.

10. Contact Us
